

BUFFALO GROVE PARK DISTRICT

MAD SCIENCE

For Grades 1- 5

Mad Science is back with a favorite series of fun, spectacular, hands-on science experiments! This session, children will explore a variety of science concepts. They will catapult into Newton's three laws of motion, learn about potential and kinetic energy using toys that pop, jump, and flip. Discover renewable and non-renewable resources for power generation, and build your own optical fiber model as we talk about telecommunications. Explore the animal kingdom and learn about feathers, fins, and fur. Then hold your breath as we dive beneath the ocean surface to study buoyancy and the animals that live under the sea. Take a look at robots and how they make our lives easier, then build your own robot hand to take home with you!
