MAD SCIENCE

For Grades 1- 5

Catapult into Newton’s three laws of motion with this session of Mad Science! Learn about potential and kinetic energy using toys that pop, jump, and flip. Discover renewable and non-renewable resources for power generation, and build your own optical fiber model as we talk about telecommunications. Explore the animal kingdom and learn about feathers, fins, and fur. Then hold your breath as we dive beneath the ocean surface to study buoyancy and the animals that live under the sea. Take a look at robots and how they make our lives easier, then build your own robot hand to take home with you... Maybe it can help you with your homework! All materials are included and instructors are provided by Mad Science of Northern Illinois.
